DETAILED ACTION

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

1. **Claims 1-4, 9-10, 12-19, 21 and 26-32** are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-25 of U.S. Patent No. 6,695,191. Although the conflicting claims are not identical, they are not patentably distinct from each other because both the applicant's claims and the claims of U.S. Patent No. 6,695,191 are drawn to the same optical fiber cleaver with the same limitations and operation.

Claim Objections

Claims 5-8, 11, 20, 22 and 24-25 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. These would allowable over

Art Unit: 2883

the prior art of record if rewritten in independent form because the latter, either alone or in combination, does not disclose nor render obvious the fiber cutting allowance (ferrule and sheath), a diamond knife, a boot-shaped with a bending toe mechanism, a plunger assembly with spring and connecting rod, , in combination with the rest of the claimed limitations.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

- **Robinson et al (US 6,628,879)** teaches the applicant's invention as prior art and also teaches the fiber claimed by the applicant.
- **Nilander (US 5,345,952)** teaches a cigarette cutter with a similar structure to the applicant's fiber cleaver.
